Sir:

Further to the Information Disclosure Statement filed September 24, 2007, it has been noted that in identifying the counterpart European Patent Application in which the document submitted with the Information Disclosure Statement had been cited, reference was inadvertently made to the corresponding International Application Number (PCT/JP2004/018184) rather than the European Patent Application Number. That is, the Supplementary European Search Report in which the document was cited was issued in counterpart European Application No. EP 04 82 0192, which corresponds to PCT/JP2004/018184.

Respectfully submitted,

Joseph J. Ruch, Jr.
